4. Discussion and decision regarding the color of the log siding at the City Rec Center.

The Commissioners looked at color samples. Amy said we need to choose a color so they can begin work on the Center before the weather sets in. Mike said he would like the color to go back as close to the old siding as possible. He recommends using a semi transparent stain.

Yvette moved to approve the Mahogany color with the stain that will take the color closest to the old siding. Norma seconded. Motion carried.
